2 Pioneer CDJ 800 MK2, Behringer DJX700, Rane SL1 box, Acer Aspire laptop and heavy duty DJ Stand.

CDJs are in great condition and function perfectly, few little scuffs, The Mixer is in poor condition but channels 3 and 4 work great. SL1 is scuffed up but performs perfectly. The laptop is an Aspire 5315 with 2 gb ram and an 80gb drive, has Scratch live installed and works great. The laptop stand is a new Stagg pro stand and the DJ Stand it all sits on is a heavy, Non portable one.

The HS80 monitors arent included but will sell for £170 as a capacitor has blown on one woofer.

this gear is no longer needed as I use Decks at our studio and I need space.

Cannot deliver or sell.
