Hi

Here is my car, it is virtually new, only been used a handful of times in fact engine could still do with a few more tanks of fuel to run it in. It works great and is very fast. Starts first time and it is also 4 wheel drive. The engine alone costs a lot of money, here's a link so you can see how expensive it is for yourself:

Car comes with everything you need, this includes glow starter with charger, screw drivers, glow plug wrench, fuel bottle and even some fuel (if collecting as fuel cannot be posted) so you can start using it straight away. The body shell and car is in perfect condition. Can also be seen running.
