Has been a real head turner getting looks wherever it goes, looks and drives like a much more expensive car! Sadly got hit few months ago so it's a cat d doesn't affect the drive. The car originally is a 2007 Red Audi 1.6 Petrol. It had a 2008 S3 face lift (It's got 109,000 miles on the clock but has been well looked after by myself 1 owner since new. The cam belt and water pump was changed around 1 year ago. Paper work to prove

FULL LOG BOOK FULL SERVICE HISTORY/CAR CHECK (Will happily send over the MOT pass certificate and service history/car check) Performance wise; real smooth handling with steering and in gearbox, superb set of brakes, incredibly speedy and reactive in the lower gears and generally powerful. There's no lights on the dashboard and very fuel efficient. I've recently had some work done on it as I thought I was keeping it, it's had a brand new top of the range Battery and Alternator (with belt) fitted by an Audi specialist garage.
