## BT606 B-Tech Atlas Home Cinema Speaker Stands (x2) (50 GBP)

Location West Midlands, Worcestershire https://www.freeadsz.co.uk/x-435685-z

Twin columned Atlas\* Loudspeaker Stands are genuinely fillable for added esoteric performance. The floor plate has curved corners allowing a balanced standing and adjustable isolation spikes are provided to maximise the stand's performance. Top spikes are also provided to help isolate the loudspeaker or alternative foam pads can be used.

Height adjustable carpet spikes are included as standard, these further increase the stand's isolation and will ensure that the stand is upright and does not wobble on an uneven floor.

Black finish
Genuinely fillable
Height adjustable bottom isolations spikes provided
Top plate dimensions - 160mm x 160mm
Bottom plate dimensions - 240mmx240mm
Will support speakers up to 35Kg
Heights available :- 60cm (BT606)

There is very slight/minor rust on the bottom panels. This could easily be lightly rubbed down and sprayed if someone felt the need.

I paid £70 for these about a year ago but don't have space for them any more. I'd like £50 but will consider all.
