I'm selling my 2014 Honda CBF-125 in dark red. I am the 1st and only owner and it's done just over 13,600 miles. It's got service history and two keys. In the winter of 2014 I had heated grips fitted at the same Honda dealership I purchased it from and they are a fully functioning extra. The overall condition of the bike is good and doesn't require an MOT until the end of April 2017. There is a scuff on the front right fairing which is barely noticeable until you look for it. It's also got a scratched exhaust heat shield (the exhaust itself is undamaged) but a replacement can be purchased online for a reasonable price if you wanted to. Mechanically it has never skipped a beat and rides and feels exactly how it did the day I rode it off the forecourt. I also have a Haynes Manual and top/back box with two keys that you are more than welcome to have with the bike free of charge. It's a reluctant sale but due to the distance I travel for work a car is more suitable at the moment. I have seen these bikes go for more money in worse condition but I need to make this a fairly quick sale so £1395 ono. Key points
