This is a Mariner 75 Hp 2 stroke outboard with Power trim 1996 which unfortunately has problems it does run tried it recently but it has a knock coming from the bottom cylinder and the trim solenoid for the raise part is not working. This engine has been in storage for a while and has got scuff marks on the lid and top of the engine as can be seen in pictures. It could possibly be salvaged by someone in the know but that's not me unfortunately so grab a bargain its worth probably £1000 as parts Its got the remotes with it but they are in a poor state but still work, no control cables though. The engine is located in Aldershot Hants and is for collection only not possible to try to get it running on collection. Payment is cash on collection only with NO returns. Any queries please phone 07771 510844 07771 5108...(click to reveal full phone number) Thanks for
