Here is my 2001 BMW 320D Touring. Served my family of 4 well, Its covered 131,790 but using daily until the end of the September, Had this car for nearly 4yrs now and hasn't let me down oncewell technically my fault as I locked it during a ferry crossing to France ! Alarm went on long enough to run the battery flat ! Jumped it and no issues from there on for 2 weeks (Saving grace the battery is in the boot), Upon return thought I'd check the battery, found out it was on the original German BMW battery at 112,000k ! Replaced Battery at service,Swirl flaps have been removed, Front end bushes replaced, CAT and rear exhaust section done at 120,000 still the factory fitted again! It has been looked after and serviced regularly all stamped an paper work to prove this, MOT till March with 1 ad for slightly worn rear brake lines, Tax till the end of September and will be SORN from 30/09 and on private land , Could add tax if before the date due to insurance change, This would be at buyers cost too.

Full Black leathers, Heated seats, Air Con, Multifunctional wheel with 6CD changer with Radio/CD controls, Cruise Control, Average Speed Programmable on slim Leather wheel, Manual traction ASC I/O Control, Rear Parking sensors, Split tail gate, luggage straps in boot, heated rear and 3/4 sides, Rear full arm rest with storage compartment and double drinks holder hidden in head cushion, Dog/Child guard !, Full angels with slit fogs, All breakdown emergency equipment as from factory, Space saver spare still new never used !! Apart from the built in Sat Nav this is not missing anything and even has the original BMW first aid kit (It is out of date now though) It even has the original BMW Torch in the glove box.

It is 15years old and has a couple of minor scuffs but they came with the car not major at all you can see

form the pics. I have inherited a car which is the only reason for sale. I am truly sad to see her go. Please call for further details or viewings 01975017501... (click to view full photo)
