Hi there This has been a much loved sofa and armchairs which I bought second hand in the eighties. Quite recently, I needed a corner sofa but could not find one small enough for my space. So I converted this item into left hand corner sofa by cutting off one of the wooden arms to one of the armchairs and placing it next to the sofa (as seen). This worked well so I also recovered the suite. Sofa - 199cms long; 86cms deep; 86cms high Good condition and recovered Armchair x 2 (one armchair with left arm removed as seated) - 88cms wide; 86cms deep; 86 cms high. Armchair with both arms has some markings to wood (as photographed). Recovered Option - Fitting one armed chair and Sofa together to make Corner sofa - 199 - 213cms long; 160cms wide; 86cms (high) Good condition and.
