This PC base unit has Windows XP loaded onto the unit with all updates done. It has a fast Pentium4 3.06GHZ cpu with 1.5GB of RAM it has a dedicated PCI express Radeon graphics card giving you fast graphic capability. It has a 300GB sata hard drive loaded with Windows XP and a selection of other programs including Microsoft Works (suitable for Word processing applications etc). This has a DVD drive and cd drive capable of reading and playing dvds and cds. It has a memory card reader and integrated firewire port. If you need Wifi access then I do have a usb wifi dongle for £5 extra, internet can be used via the LAN port integrated into the Motherboard. It is in excellent working order and comes with a restore DVD allowing you completely put it back to the original settings in around 25minutes. The base unit doesn't come with screen, keyboard or mouse. However the PC will be seen working including the.
