This PC base unit has Windows XP loaded onto the unit with all updates done. It has a fast Athlon 2000+ cpu with 1.5GB of RAM. It has a 160GB hard drive loaded with Windows XP and a selection of other programs including Microsoft Works (suitable for Word processing applications etc). This has a free Antivirus software loaded onto the machine. This has a DVD recordable drive which is capable of creating DVDs and cds as well as playing DVDs and cds. If you need Wifi access then I do have a usb wifi dongle for £5 extra, internet can be used via the LAN port integrated into the Motherboard. It is in excellent working order and comes with a restore DVD allowing you completely put it back to the original settings in around 25minutes. The base unit doesn't come with screen, keyboard or mouse. However the PC will be seen working including the internet. £25 NO OFFERS
