Mel's Laser Beauty LTD provides Laser Hair Removal Harrow. It is becoming a growingly popular option to remove unwanted hair. This is a great method for removing unwanted body and facial hair without the burns, nicks, and redness of shaving and waxing. Our Laser Hair Removal offers all methods of hair removal using IPL Laser or Electrolysis Laser at harrow. It is instinctive known as a permanent hair reduction process, and although it's not total hair removal, it does drastically decrease hair growth and the need for shaving. The 3 Types of Laser Used during treatment- Ruby Laser This laser works leading for very Fair skin and is not very commonly used. YAG Laser This is one of the best common lasers used and is used to treat Un-lighted skinned people. IPL IPL is the most commonly used laser in the hair removing technique. It is most effective for light to medium type skin tone. The widest advantage of laser hair removal is getting rid of undesired hair growth. Hair removed at a laser clinic will take a long time to grow than by other usual means. We provide safe and effective solutions for a broad range of skin conditions including Acne, Acne Scarring and Anti-aging treatments. It burns and completely disables the hair follicle and in some cases removes the hair permanently. Mel's Laser Beauty LTD clinic offers wide range of face, body & beauty treatments for the men and women both. We have expertise in laser hair removal.
