Hi all

for many many years ive been writing lyrics, lyrics come to me so easy like a drummer playing the drums or a bass player playing the bass!! i worked with a few bands many years ago and also my buddies house music record label. I can write in many forms from pop, to love ballads even to songs similar to rap artist and EDM, i can turn my gift to anything. I am in my late thirties but now really want to crack on and get some kind of achievement from my lyrics, i am happy to write for bands already looking for great material or happy to start a fresh with like minded people who want to take the music industry by storm, with the power of you tube and twitter and social media we can get the the dream we all want

i am not in it for the fame maybe the fortune, but in the music business so people can listen to our music and have it set off a memory of days gone by or somehow touches them with in the life they live now

if you want to stand up and say lets do it then email me today and the rest is history as the saying said!!!

i have left first verse of one of my songs on this Ad, lets see who comes up with the best melody for the lyrics or even if you can sing then sing!!, once done please send to me

looking forward to working with you all
