

This is the darkwood, flat finish front with ovular soundhole semi acoustic ED-30 CE Model. All tested and working, new strings and rings true. Ready to use. I am located in Northampton and I prefer not to send instruments such as guitars by carrier or Post Services. I can, but i stress, buyer must pay me for getting appropriate packaging and carrier/courier fees. None of my guitars have boxes. I may be able to deliver myself or associate if distance and logically viable. This will mean a fee added to purchase price (costs etc) on top of purchase price, but safe delivery more likely than courier. I have other Ads on this and other advertizers, please look. Same conditions for delivery.
