

We are a food research company based in Epsom looking for people who want to participate in our research by becoming a consumer panellist. We invite panellists from Epsom and the local Surrey area to attend consumer taste testing sessions, where you will get to try different types of products and help shape the future of food. We run many sessions throughout the week; you will be given samples of products to assess and then give your opinions via questionnaires using iPads. For attending these sessions, Leatherhead Food Research will contribute towards expenses for your time. We are also looking for people across the country to join our database. Aside from the consumer taste testing in Epsom, we also run home-trial testing and online surveys which anyone nationwide can take part in. If interested please follow the link below for more details and to access our online application form: <http://sensereach.eyeqsoft.com/eclh/login.do> When registering please enter recruitment code: AD1 ;
