

Moto Guzzi STELVIO 1200 2011 (60 GBP)

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-441958-z>

MOTO GUZZI STELVIO NTX This has been my daily driver for just over two years, it has never let me down and will be sad to see it go. Unfortunately my work situation has changed and I won't be using it as much, so would rather see it go someone who's going to use it! Full Moto Guzzi service history. The bike has just had a major service, fluids, filters and alternator belt changed, also an ECU map update. Both tyres are recent, front February, rear August and matching Dunlop Trailsmart The only niggle is, the RH fog lights is not working. It's a notorious problem with the units where the bulb spring clip breaks and you can't get replacements ... well done HELLA! I was going to replace them both, but will leave that up to the new owner's choice. There are few scrapes on the hand guards and LH engine bar from getting it in and out of my gate and other minor age related marks The mileage may go up, as I will be using it up to the point of sale Message, or call me with any questions 07841 997 990 07841 997 9...(click to reveal full phone number) and ... Please look at my other!
