Lovely 1920's oak sideboard This is a really lovely, solid piece of furniture with a large cupboard space with a shelf and two doors and two drawers below. The drawers have original handles and the cupboard doors both have original keys which lock. There is pretty carving detail to the doors and drawers. The top and the inside are painted black. This sideboard can be used with or without the back piece which can fix to the top (I have shown it with in photo 1 and without in photo 2.) I have not fixed this piece on myself so people can choose which way they prefer it, but it can be fixed on very easily. If you want to use it without, there are 3 very small, unnoticeable holes on the black top where it fixes into place. This is in generally good condition but there are flaws here and there as you would expect from a piece of this age. I am very happy to answer any questions. H 94 cm W 122 cm D 46 cm ;
