ADX 150 Metal detector mounted on a straight shaft with XP 11in DD coil for more depth and ground coverage excellent all round detector suit beginner serious user or just as a backup machine ,very easy to use just 2 knobs for deep search detecting. Comes with control box cover new unused stainless steel digging spade , folding mini shovel headphones and 8x AA batteries everything you need to get started. Works on all terrains including the beach ,control box can be hip mounted via a belt if required but the detector is light to use anyway. one of the best mid range detectors you can buy ,I fund a gold half sovereign with this machine. Buyer collects sorry no swaps offers or timewasters.
