Hi everybody,

I am a professional photographer who is happy to offer you creative photoshoots for a very low price.

These have to be really interesting and creative shots, so it would be better if we communicate a little bit beforehand to find ideas which would be interesting for both of us. I am very eager on interesting locations, decorations and personalities.

So what is offered:

- 1-hour photoshoot (in case of fascinating idea - much longer, but we will find out that in the process)
- All photos sorted and processed (contrast, light, tone, cropping etc.) I send you in next days per Dropbox or similar way.
- You choose your 10 to 15 favourite and I retouch them (and maybe extra 5 my favourite) trying my best (deepened Photoshop work with skin, colours, effects and magic). You get them ready on the next week (but usually I'm too inspired and do everything immediately).
- For a price of as low as £50 you get a bunch of photos from a professional photoshoot (usually 50 to 70 shots, or much more if we both work really hard) and approximately 20 high-end retouched ones.

Feel free to describe me your courageous ideas and tell me a little bit about yourself if you feel that way. If you have nothing specific on your mind that is not a problem at all, we can come up with something.
