Private English Lessons give you the opportunity to focus on the language and skills which are most important for you and progress at a pace which suits you. They can be either individual one-to-one tuition or small groups of up to 5 students per class. Because these classes are designed to meet your specific needs, there are a wide range of topics and skills which we offer. These include General English from starter to proficiency level; exam preparation for IELTS, Cambridge English, Trinity, TOEFL and BEC; preparation for the Life in the UK test; Business English; fluency and pronunciation practice; and help with more specific tasks such as making presentations. The first lesson will involve a needs analysis session where course aims are discussed by the student(s) and teacher. Learn more: <http://wles.net/courses/private-english/>
