Speaking naturally and fluently is the main aim of most English language students and our Conversation Class gives you the chance to focus exclusively on your speaking. This class will help you to improve your pronunciation and fluency in English as well as boost your vocabulary. By developing your English conversation skills, you will gain confidence and more opportunities - such as being able to make friends or find a better job. Our Conversation Class covers a wide-range of everyday topics including: British culture and traditions; British humour; making small talk; and more practical skills such as opening a bank account. Teachers will utilise materials from authentic sources such as magazines, newspapers, videos and podcasts. The course is designed around the individual needs of the students in the class, so the topics you study will vary. We keep class sizes small so that your teacher will be able to focus on your specific needs. Our conversation class is currently available on Saturdays.
