

15 off Business Health insurance

Location **South West, Dorset**
<https://www.freeadsz.co.uk/x-444542-z>

Having business health insurance is vital in protecting the daily running of your company - having your staff healthy means that you won't have to worry about sickness and productivity. We offer insurance that rewards your employees for being healthy. As well as protecting them when things go wrong, it also helps them lead a healthier life. We'll help them understand their health with a free Health check and give them savings and discounts on ways to improve their health. As your employees use our health partner discounts to improve their health we give them points which contribute to their own status. The more points they have, the higher their status. Call us now for a free quote: 01202 800
