We have 3 black and tan females and two black and tan males ready to leave now at 8 weeks old. The pups were conceived as an accident between our family protection dogs. Pups can be seen with Dam at our home. The dam is very friendly. The blood lines are russian and consequently these dogs make excellent alarm dogs. The puppies are suitable as pets for experienced homes only. They will need lots of exercise and a back garden is essential! Pups come with private pedigree first vaccination and microchip but no KC pedigree as we would prefer forever homes not middle men! VWD free by parentage.;
