

Table Saw 10quot 1800W Ferm - New Boxed - Quality Workhorse (125 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-445436-z>

Table Saw 10" Ferm Brand new, unused, and boxed quality table saw. Purchased to replace my existing Ferm table saw. It has become surplus to requirements before even being used, as my original machine is now working again after replacing the carbon brushes on the motor! The TSM1034 FERM table saw is provided with a powerful 1800 Watt motor and with that you can call it a real muscleman. The machine has a saw angle of 90°, a maximum saw capacity of 74 mm and at an angle of 45° the machine can saw up to 63mm. The YouTube video shows the previous model TSM1033 which has a slightly different table.

The table saw is provided with a safety switch and thermal protection. The optional table extensions create a larger and more stable workbench. The FERM TSM1034 table saw is a very complete and versatile machine. With the table extensions you can saw larger plates. The dimensions of the table are 945 x 932mm. The FERM TSM1034 table saw comes with the following accessories: TCT-saw blade (T40) Parallel guide Mitre guide Push stick 3 Table extensions (2 side, 1 back) Safety glasses Ear plugs. Supplied with UK 3 pin plug fitted. Technical data Power:- 230v 50Hz 1800w motor

Speed:-4700 rpm

Blade:- 250 x 30 x 2.8mm

Teeth:- T40

Max. Cutting Depth at 90 degrees - 74mm

Max. Cutting depth at 45 degrees - 63mm

Max. Overall table top including extensions:- 945 x 932mm

Motor fitted with overload protection

Dust extraction port on the rear of the machine will suit most vacuums The normal retail price for this saw

is £250 as you can see from the Amazon listing. I'm very tempted to hang on to this saw and keep it as a spare for a big friend's table saw. It's a big, powerful, spacious machine. It should be a good one. So if you have the opportunity to own a quality workhorse table saw for a bargain price of only £125, don't miss it. Offer is available for a limited time. Will also be available in UK, but not with + ins. 125 is just extra.
