A very reliable and comfortable car to drive; starts first time and drives beautifully. It is my son's but he no longer needs it since he's just moved to London. The good points: 12-months MOT, best Punto colour, alloy wheels, professionally serviced with new battery, coils and ECU, excellent tyres all round, Blaupunkt CD/radio, clean non-smoking interior. Bad points: scuffs and marks you'd expect from age but also a small dent and paint peel to driver's front wing, slightly bashed edge to driver's door, one front grill vent cover and a wheel nuts cap are missing and the driver's electric window has stopped.
