Subaru Turbo 2000, 2000 plate. 105k Full service history MOT Feb 2017 X2 original keys + fobs HPI and finance clear All original books and folders Belts changed Exceedy clutch Bailey dump valve Ram air filter 3" stainless steel turbo back exhaust JVC CD player Kenwood 6x9 under original speaker covers This cars drives and looks great. I bought this a few months ago as a keep in the garage long term keep to get to mint condition, sadly a change in circumstance means it needs to go. I bought this car COMPLETELY standard which as you know is very rare. I am not a boy racer and wanted an original example to put the bits on that I wanted i.e the dump valve, exhaust and air filter. Only bits that need doing is a bit of rust in the arch and a bit on the seal. Re-attach the side covers (chap before liked the look of the RA model) and two new front tyres. I've been under the car and it's in lovely condition. First to see will buy. No offers. Any questions please call or PM me. 07432 788 225 07432 788 2...(click to reveal full phone)
