

Renault Grand Scenic 2005 (950 GBP)

Location **West Midlands, Worcestershire**
<https://www.freeadsz.co.uk/x-446404-z>

I have spent a lot of money fixing the car up. It comes with 2 brand new keycards costing nearly £250.00. The Camshaft Dephaser pulley and cambelt, timing belt and plugs have been replaced costing over £600.00. Along with this the Camshaft Sensor and both the oxygen sensors upstream and downstream have been replaced. Furthermore, all the wiring for these have been checked and are all in good order. The Car has a new Water pump, New Thermostat Housing, New front and rear coils, New rearside tire. and the battery was replaced less than a year ago and has a 3 year guarantee. I had started to works on the bodywork and have had the driver side repaired of any scratches. There are a few minor scratches that are not overly noticeable. Spent over £1500 on doing the car up (and have the receipts to show the work). It is in good working order recently passing MOT with no major problems to be fixed. Lovely reliable car and very cost effective on Petrol. OTO as can no longer afford to keep!
