Classic pull back cruiser. Timeless custom lines! The C800 provides a laid back riding style with plush comfort blending the retro styling of glittering chrome with refined modern technology and precision engineering. The styling includes timeless visual statements such as the footboards, spoked wheels, rich paintwork, tank mounted instruments and flared mudguards – marrying these to an advanced fuel injected V-Twin engine, modern suspension, LED taillight and the luxuries of a gear position indicator, fuel gauge and clock. The new Intruder C800 – classic rumble, modern.
