

# Logitech Squeezebox Duet - WiFi Internet Radio receiver with wireless MP3 music str

Location

West Midlands, Warwickshire

<https://www.freeadsz.co.uk/x-447059-z>

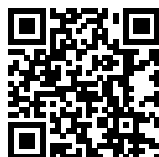

Streaming audio receiver The Logitech Squeezebox Duet consists of a receiver with stereo phono, coaxial and optical S/PDIF outputs and a remote control with a colour screen. The remote control allows you to browse tracks from your music collection and play them through the receiver and on any other Squeezebox device connected to your network. The remote can communicate with both the SqueezeCenter server software installed on your PC and the receiver. ;
