www.academia-tutors.co.uk Academia Tutors is a team of academics from a number of major London universities such as King's College London and UCL that specialise in providing high quality tuition across in all major subjects. We offer tuition for both university students including undergraduates and postgraduates as well as GCSE and A-Levels. We understand pre-exam pressure on students and can help them manage stress and workload. Through years of experience, we can collaboratively identify pupils' weaknesses and structure programmes to turn them into strengths for consistent success. Our tutors' expertise can be of assistance through either of the two programmes we have available:
private teaching or group classes. To find out more, visit: www.academia-tutors.co
