

Bulldog Garage Doors 799 fitted

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-447508-z>

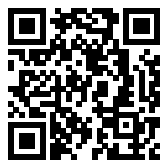

From the push of a button.....straight into your garage We designed our electric Remote Controlled Garage doors after extensive research revealed what users of remote controlled garage doors really wanted. Every Bulldog high security automatic garage door is tailor made to your exact specifications and will be fitted by our team of experts. Automatic Operation Can be opened and closed from the comfort and safety of your car. As the door rolls up, internal lights can be activated for added security and remain on as you park your car and close the door. High Level Security Features The automatic locking system eliminates the need for additional keys. There are no handles or protrusions on the exterior of the door which could aid unwanted entry attempt. If your garage is attached to your house, this is a valuable extra security. Ease of Operation Guide rollers ensure smooth and quick operation with no visible springs or levers. Superior Design No gaps ensure excellent weatherproofing keeping your garage warm. It can be manually opened in the event of power failure. Safety When the door is opening and closing it does not swing outwards and has separate up and down buttons for additional safety. Your CE Marking Guarantee Because Bulldog controlled Garage Doors carry the coveted CE Marking, you know they have passed stringent safety tests to comply with European regulations. This means your Bulldog Garage Door will be completely safe to use - always. Increased Garage Width In the majority of cases the width of your garage opening can be increased by fitting the door internally. This is particularly advantageous on single garage doors. Excellent Installation The double skinned aluminium door with foam filling and a rubber seal really keeps the heat in and the cold out. Integral Electric Drive Motor With no visible springs or levers. Create Roof Space The roller box takes up as little as 205mm of roof space to maximise head room in the garage roof. Value For Money We manufacture our own doors to CE European standard

specifications, therefore you are eliminating the middleman. Wide Choice of Colours and Combinations. Call the line which complements your car and home. The name of The Bulldog Service. With our 24hr decision making, you can look forward to the best of trouble free service from your remote controlled garage.
