The 'I want to be a pop star and learn the guitar' phase did not even last 5 minutes and hence the package on sale has hardly been used and all items are in excellent condition, as shown in the photographs. The Guitar is a dark green Yamaha Pacifica 112J widely promoted as a great entry to the world of electric guitars. It is a right handed guitar and in pristine condition. The Marshall MG 15DFX Amplifier came recommended for this guitar and was bought as a package. Not a scratch or mark on the Amplifier. The Ritter Guitar Case is heavily padded and has various pockets for accessories. Has not been taken out of the house since bought and again is in pristine condition. Includes all required cables. Collection.
