White, 2 owners, The CB1100 is a beautiful recreation of an aircooled inline four. It is easy to handle, novice friendly and has fantastic detailing inspired by bikes of old. The riding position is completely natural and perfect roadster style. Those wide-ish chrome bars combined with the skinny, 18-inch front wheel adds up to ultra-light, dainty even steering perfect for flicking between traffic. It is all executed brilliantly. The finish is glorious, the attention to detail superb. The side stand, for example, sits in just the right place, is easily located with your toe and clicks down effortlessly. In short the CB1100 has all the hallmarks of refinement and maturity of a second or even third generation machine. This one comes with Honda heated grips and fork gaiters. The North West's finest family run motorcycle dealership, £7,995 no
