The MV Agusta 800 Brutale Dragstar RR is without doubt one of the best things to come out of the MV factory in the last 5 years! This RR is stunning to look at, has razor sharp handling and best of all it will give you goose bumps the size of walnuts!! The RR is the upgraded version of the original Brutale 800 and upgraded it is in deed, the bike is utterly brilliant in every department, oozing massive sex appeal and a whole bunch of sophistication thrown in, not only that this Brutale comes with 3 way engine modes ( race, normal and sport ) 2 way quick shifter, traction control, slipper clutch and top notch Gucci parts every where such as Brembo brakes, Sachs shocks and Marzocchi front suspension and last but not least a £1200 Zero exhaust system which sounds absolutely incredible, it also comes with a stunning carbon heat shield and tail tidy! The Brutale RR comes with as standard CRC steering damper, Multi functional digital dash and Pirelli Diablo Rosso Tyres. Basically what you have is an extremely capable, well designed bike with a bucket load of piazzas chucked in for good measure. It is an awesome bike and must not be missed with only 1336 miles on the clock 12 months remaining of the MV warranty and also comes with full HPI check full service history and PDI.
