Our bass player recently decided to pursue different projects so we're looking for a solid bassist who can bring their own unique style to our band. Own gear & transport essential, backing vocals/harmonies would be awesome. We currently have a couple of gigs in the diary and plan to update our online presence/image to help secure bigger gigs.

We play a range of great stuff including rock, pop, reggae, funk and disco. We aim to keep things fun and energetic as well as flexible, with occasional stylistic mashups, unexpected but popular tracks, maybe a medley or two but always high quality. Line up comprises keys/clarinet/various, drums, electric guitar and vocals/acoustic guitar.

Google 'equivalents band' for some demos. Please respond with links to audio. We're holding auditions on Sunday 23rd Oct.

Cheers,
