What is Kinesiology? Kinesiology is a low cost and enjoyable path to natural health. It involves delicate muscle testing to assess which organs are needed work on system. Correction methods are based on what the body tells us it requires. What I do?: Muscle balancing to fix any imbalanced muscles, Food testing and nutritional advice to bring energy to organs that are needing attention, Chronic pain tapping to reduce and pains to all areas of the body, Emotional stress release for all past, present and future issues. Also offered: Postural examinations and improvements, simple tips for looking after your health at home using kinesiology.
