

Ridley Tempo White - Black, 58cm (22.75") Womens specific geometry

Ridley make some of the best bike frames, some being used on the pro tour, whilst not a pro tour bike this is no exception as this is an excellent hybrid bike with a lightweight aluminium frame. Aimed at the road and trails this is a quick, well equipped bike and with its wide range of 27 gears this works just as well on the roads and trails in the peak district as it does in the city. Great as a commuter bike and with carbon forks it gives a very comfortable ride. As Ridley say about this bike "why take the slow lane when you can ride at the pace of the tempo".

This bike is unused and as new but with a few upgraded components

I have one of these in a smaller size (this one was just too big) and it is my favourite bike ever, I ride 000's of miles a year on it and prefer it to my carbon fibre road bike.

It is a 58cm frame and I think would suit someone 5'9' or taller but you are welcome to come and try it before bidding.

Ridley's description:

“Why take the slow lane when you can ride at the pace of the Tempo? The Tempo is equipped with

mudguard eyelets and luggage carrier mounts making it perfect for commuting and fitness cycling. ||
 Its spray-on aluminum frame that is quite strong. Sacrificed comfort - Sloppy geometry provides
 sufficient control and hold. || - 4Z aluminum fork takes the 4Z out of road bike pretensions. || Frame
 is made of 7000 aluminum. Fork: 4Z aluminum carbon. || Frame: 4Z aluminum. Women's
 Frame Weight (g): 1600
