English Heavy Ornate Silver Plate Candelabra with Rotating Capital and Labra An old style candelabra hard to date but probably early to mid 20th century with ornate sconce, knops and base. "Made in England Silver Plate" is engraved on the base. It looks as if the silver plate was applied to a pewter base metal. A perfect centerpiece for the dining table, the top part of the candelabra rotates making it easier to light the candles. Product Dimensions Height: 360mm Width: 280mm Candles Holder Size: 25mm Weight: 2.5kg free shipping find us at kode-store or email us
