I have a canon eos 70d for sale in pristine condition, it really looks like new, been hardly used and been sitting in the cupboard for few months now, hence the sale as we are not using it being busy working. It comes with 2 canon batteries, charger, manual book, a 18-135mm lens with UV filter and a sdxc high performance pro memory card, cables and softwares, no scratch or dust, very low actuations, simply mint condition. Very good piece of equipment. You can use the camera straight away. Thanks for.
