

Electric Roller Garage Door For Sale (Available Soon).

Location **South East, Kent**
<https://www.freeadsz.co.uk/x-457239-z>

My garage is due to be rebuilt and the roller shutter I have will be up for sale. I cannot let it go before the rebuild is underway. I am looking for a potential buyer now to be able to hand over the shutter to eliminate the chance of damage during storage. The shutter is fitted to the outside face of the garage so has a box covering the roller which is not needed if fitted to the inside of the garage. The size of my opening brick to brick is 2280mm wide x 2190mm high. The overall width of the guide channels is 2460mm. The overall height from the top of the box to the bottom of the guide channel is 2555mm. The drive through height is 2120mm width is 2280mm. It is in good working order and comes with two remote controls. The colour is brown on both sides. The door system can be cut down to suit smaller apertures if you are capable. I have the Installation Instructions and the Operation and Maintenance instructions. You are welcome to view and check operation. The price is £500, a deposit of £40 will secure the.
