Myntex is one of the few leading companies offering encrypted wireless email and data protection services since 2010. Our primary goal is protecting our customer's privacy and focusing on keeping your data confidential and secure. With 24/7 access to unparalleled technical support, 4096-bit PGP encrypted email messaging and private secure servers you won't have to look far to understand Myntex is your number one provider for secure end-to-end communications. We offer:

- Remote wipe capability
- Unlimited world wide data coverage
- Free re-activations
- Express shipping
- Competitive pricing
- Secure privately owned data center
- 24/7 Technical Support
- Communication with other providers
- Cutting-edge DDOS protection
- Fun Google like office Check us out! <https://www.facebook.com/Myntexinc/?fref=ts>
- Dual Redundant Internet providers
- Oversized generator in case of natural disasters
- No mass messaging
- No blocking games, and no drama Our BlackBerry's are fully locked down with the microphone, GPS, and camera fully disabled.
