Here is my Kyosho buggy, it has barely had any use and is in great condition. Only been used a handful of times in fact engine could still do with a few more tanks of fuel to run it in. It works great and is extremely fast, starts first time and is 4 wheel drive. Car comes with everything you need, this includes transmitter, glow plugs + charger, spark plug wrench, fuel bottle, spares including spare clutches, etc... And even some fuel (if collecting as fuel cannot be posted) so you can start using it straight away. The body shell is in perfect condition and the car can also be seen.
