

## Mobile Vehicle Mechanic Offering 30 Years Of Experience. Low Rates And Mobile

Location **South East, East Sussex** https://www.freeadsz.co.uk/x-457507-z

## **Vehicle Mechanical Services**

We have recently fitted a new 20 tonne hydraulic press here at the shop and am pleased to announce that we can now replace worn out bushes and suspension components, often the cause of a failed M.O.T. We can carry out most mechanical work at your premises, From full services to M.O.T fixes like brake pads and discs or c.v boot replacements. Should the work require a little longer to complete (for example replacing suspension system or changing cam belt etc) we would prefer to carry out the work at the shop. Our workmanship is our reputation, the customer is kept updated throughout and even provided photographs of suspect components that are very often hidden from their line of sight. Please contact us for a free estimate today. All levels of services available from Interim to Major (Interim service: Internal engine flush, oil and Anti-freeze change, air filter and oil filter replaced. Tyre pressures corrected. Flexible service terms, customer can supply the parts or we can supply them.;
