I am selling this king size Sleepeeze mattress, which is still in a decent condition. It is the Concept 1000 Backcare non turn mattress. This is a king-size mattress and is 150cm wide. We have just bought a new bed, which is a double rather than a king, so the mattress is no longer required. The existing bed was bought while we were in a larger house. Collection only from Whitley Bay .. any time up until Saturday evening (30th Oct). Our new bed is coming on Monday, so if it hasn't gone by then, the supplier will remove it for.
