My 13" Macbook Pro is up for sale as I'm going to revert back to using Windows. This was the first Macbook I have ever bought and it's just not for me. It's an 'early' 2015 model with a 2.7GHz i5 Processor, 16GB RAM and a 512GB SSD. It's in fantastic condition with no dents or scratches anywhere on the Macbook housing or on the screen, the Retina display is still perfect. The battery is healthy and the battery cycle counter reads only 51 cycles. I only bought my Macbook in June of this year and there is extended Applecare warranty remaining until 11th June 2019 to cover any potential problems in the future.

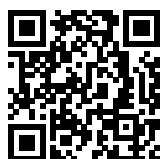

Key Specs:

- Apple Macbook Pro 15.4" Retina (Early 2015)
- Serial No: C02RV17AFVH6
- macOS Sierra
- Microsoft Office 2016
- 2.7GHz i5 Processor
- 16GB RAM
- 512GB SSD Storage
- Intel Iris Graphics 6100 1536 MB
- Force-Touch Trackpad
- Backlit Keyboard

I have met the original owner, a safe, reliable computer and a high quality lead. I have a receipt, (2 years warranty), the buyer is to collect the laptop after 1 week night. I have it delivered to your door with insurance for £15. Questions are welcomed and will be answered quickly. I may be open to slight negotiation on the price.
