White, This is the last edition which comes with Ohlins rear shock as standard. The YZF750 was launched at the beginning of 1993 and quickly got a name for itself as nimble, quick steering sportster that handled more like a 600 than a big 750. The YZF's road manners didn't need to be compromised by its race track aspirations. This model compared to the SP has more usable gear ratios, proper pillion accommodation and far better engine behavior. The bike will be serviced and come with 12 month's MOT. This bike has been imported from the Continent and will be UK registered on an age related number plate upon sale. The registration transfer paperwork can take 2 - 3 weeks depending on timescales from DVLA. The North West's finest family run motorcycle dealership, £3,995 no
