MANUFACTURES INFORMATION NVIDIA SHIELD Pro - 4K Ultra HD Streaming Media Player. Android TV. Great Gaming. Transform your TV experience with 4K HDR streaming, advanced gaming, and Android TV — only on the NVIDIA SHIELD Android TV streaming player. NVIDIA SHIELD is an amazing 4K HDR (as well as Full HD) home entertainment system, delivering incredible resolution and picture quality in favorite apps like Netflix, HBO, HULU, YouTube, VUDU, ESPN, Major League Baseball, NBA, Showtime, Disney, KODI, and PLEX. Vivid 10-bit color and rich Dolby 7.1 and Dolby Atmos surround sound make this a true home theater experience. Or plug your headphones into your SHIELD controller or SHIELD remote for a private listening experience. Say "Oscar-winning movies" or "launch Netflix" and let Google's advanced voice commands find content

for you on your Android TV. Universal search capability provides access to the most comprehensive list of streaming services from Netflix, Hulu, Amazon Prime, HBO, and more. It also recommends content on your TV screen. Even lets you watch your TV shows on your phone or iOS device with built-in Chromecast support. SHIELD powers your smart home the fast and easy way to download premium Android games, your favorite indie titles, and the most advanced Android TV titles with rich gameplay and intense multiplayer action. Or join GeForce NOW to connect to NVIDIA's gaming supercomputers and enjoy unlimited streaming of popular PC games on any newly released games from the online store. Enjoy what The Wall Street Journal calls "the highest performing streaming TV set-top box ever made". NVIDIA SHIELD is over 3X the performance of new Apple TV, new Fire TV, or Roku 4. NVIDIA SHIELD Pro comes with 500 GB of internal storage, a microSD card slot for external storage, 802.11ac wireless AC with MIMO, Gigabit Ethernet, two USB 3.0 ports as well as game controller as well as an HDMI cable. Enjoy infinite entertainment on a single

easy-to-use device, including movies and shows in 4K - now with HDR, the next big thing in TV technology. Plus, access your favorite songs at the touch of a button, and a new generation of great games. Get the best experience in Netflix and YouTube with support for 4K HDR in Netflix, 4K 60fps in YouTube, and universal voice search and private listening in both. Plus, access thousands more apps, including favorites like HBO, HULU, ESPN, VUDU (supports Ultraviolet and Dolby Atmos), Disney, PBS Kids, Showtime, CBS, Pandora, Spotify, Sling TV, NBA, MLB, Plex, and Kodi-all powered by Android TV. Just say what you want to see and let Google's revolutionary voice search technology find it within seconds. Then get the most comprehensive search results of any streaming device with results from over 60 apps, including Netflix, YouTube, HULU, HBO, VUDU, and more. And Chromecast is built-in, so you can cast from your Android or iOS phone to the big screen. Expand your entertainment with the most advanced gaming of any streaming media player. Play next-gen Android games only available on SHIELD or stream popular PC games from the cloud with GeForce NOW. Experience unbeatable performance that delivers the best streaming media experience - 3X faster than Apple TV, 4X faster than Fire TV, and 10X faster than Roku 4. SHIELD features 500 GB of storage (expandable up to 128 GB), the SHIELD controller, and an HDMI cable. With Plex Media Server built-in, SHIELD Pro gives you a powerful media server for streaming all your movies, TV shows, music, and photo collections to your phone or tablet,.
