This unusual 1960's matching Bedroom set comprises of a Dressing Table, a 3 Drawer Chest and a twin Door Wardrobe. The front and top surfaces are finished in a High Gloss Formica/ Melamine with a Porta-Fleck paint finish to the sides and the legs. The furniture is in Excellent condition, it was purchased in the 60's for my wife when she was a young teenager, only used for 5 years, and has been in a spare bedroom ever since, unused! The wardrobe has the original keys, the robe and the 3 drawer Chest has a quilted cushion feature panel. The plastic light covers on the dressing table have become brittle with age but retain their originality. If you like 1960's retro furniture you cannot miss!
