White, R version, up rated brakes, adjustable suspension, body kit, 1 owner, Compared to the previous incarnation, the 2013 Triumph Street Triple R is lighter, smoother, more refined and has the handling and brakes a superbike would be proud of. Best of all, it's 6kg lighter. It's lost some of that in-your-face, foaming-at-the-mouth aggression, which made the original make us all stand up and take notice back in 2007, but it'll be a nicer? bike to live with. For the first time there's also an ABS option. It manages to be more of everything: better for newbies, more capable for fast riders, more fun for adrenalin junkies and has one of the best engines and exhaust notes in biking. It's a great all-rounder, no matter what your ability, Plus 60 pounds documentation fee, Bill Smith Motors Celebrating over 50 years in Business! £6,999 p/x
