Do you have a pet you would like illustrated in this style? If so you can request a custom order and i can draw your very own pet portrait with you in it! (I can draw pets alone too if you would prefer it that way).

How it works: I will need to be sent photographs of whoever you would like to be in the portrait, these don't have to be high quality but decent and clear.

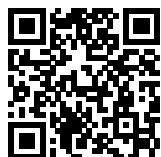

If you have a particular interest for example you love space related things, or all things flowery, I can make a special background tailored to that interest, but please do let me know beforehand.

Once we've discussed what you want in your portrait, and after you've purchased the portrait, i can then get to work on creating something lovely and special for! :)
