bought June 2014 from SDM dealership. Been serviced x2 , long life spark plugs been replaced. The engine has a timing chain. Break disc and pads have been replaced over the past year. Car is in excellent condion with no scraps and dumps which was polished and waxed weekly. Car is fitted with a tow bar and twin electrics .
 Max towing capacity is 1350 kg . Caravans which have unlaiden weight of 1200kg may be towed quite easily.
 MOT is not due till 2017 and service around march 2017.
 Services are electronically recorded but have receipts of my two services.
 Mandatory cost for the car each year for me is £460 which consists of full comp car insurance , road tax and MOT.
 Reason for selling the car is due to a change of circumstances with in the family. It's a shame to sell but who ever buys will have one brilliant.
